How To Use This Catalog

Table of Contents

Each transmission group of this catalog is listed in the table of contents. This spare parts catalog includes only transmission specification numbers for North American applications.

Technical Information

All technical information is specific to the transmission models that are referenced in this catalog. Weight and oil capacity information are only approximate and may vary by actual transmission specification. For any technical inquiry, please contact your preferred ZF passenger car transmission distributor for assistance. For a list of technical literature available from ZF or for answers to frequently asked questions about ZF transmissions visit us at www.zf-group.com.

Spare Parts

Each transmission is divided into groups (e.g. gearbox housing group). The position number (**Pos #**) is used to identify the location of each spare part in the transmission. A position number like 01.010 is either a spare part or an assembly. A position number like 01.010/110 is a subcomponent of an assembly. Please contact your preferred ZF passenger car transmission distributor about availability of assemblies and subcomponents.

The part number (**ZF part #**) is used to identify a specific spare part and is usually ten-digits (kits, lubricants, and technical literature have exceptions). Please use this part number, when ordering ZF spare parts.

The description (**Description**) identifies the spare part.

The quantity (**Qty**) is the amount of spare parts included in one transmission model for a certain position number. The quantity may vary depending on the transmission specification and certain spare parts may be used in multiple positions in the transmission.

This catalog includes only spare parts for North American specifications of a ZF transmission application. The "where used" column (**Where used** (10__ 000 __)) shows the last three digits of the transmission specification that uses the listed spare part. If the column indicates "All", then all North American transmission specification use this spare part.

The notes column (**Notes**) gives more information about the spare part (e.g. included in a kit).

Example:

Pos #	ZF Part #	Description	Qty	Where used (1056 000 __)	Notes
01.010	1056 201 084	Gearbox Housing	1	087/088	
	1056 201 087	Gearbox Housing	1	081	
01.010/110	1056 301 174	Gearbox Housing	1	087/088	
	1056 301 175	Gearbox Housing	1	081	

Selective Shims, Snap Rings & Kit Content

Each list for selective shims or snap rings is listed in this section of the catalog. Please measure the clearance according to the repair manual and select the required spare part from the table.

The kit content section shows all available kits for the transmission models that are referenced in this catalog, including the content of each kit.

Notes

Warranty Information

Warranty coverage for ZF passenger car transmission spare parts and kits covers the first 12 months after installation in the vehicle, or 24 months after purchase from ZF Industries, Inc.

Warranty of the product is limited to replacement or repair, if found to be defective in ZF material or workmanship, and specifically does not cover removal, reinstallation, or any costs incidental to the repair of the vehicle, or any kind of consequential damages.

All warranty and/or non-warranty returns must be approved.

Disclaimer

The specifications and information shown in this catalog have been compiled from accepted and reliable sources and is believed to be accurate at the time of publication. While ZF Industries, Inc. believes this information is correct, no guarantee or warranty is made as to the accuracy of the information and ZF Industries, Inc. cannot and does not accept or assume any responsibilities for errors, omissions, or consequential harm or damages. Replacement parts should not be used when they do not appear to fit. ZF Industries, Inc. disclaims all liability and responsibility for any harm resulting from any such modifications.
